## How to Take Control of Your Money

You may have heard the wise advice, "control your money or it will control you!" Unfortunately, for many people, money management is a major issue. The good news is that it can be easy to control your money without stress or worries. A solid plan is the best place to start. It might be helpful to set aside a certain time each week to pay bills, balance your checkbook, or discuss financial issues with your family. In just a few easy steps, you can develop a plan to help you stay in control of your finances

Use the five tools below to control your money. Following is an example of each tool.

1. Calendar: Use a calendar to write when money is coming in (pay, retirement, etc.) by date, and write when to mail bill payments by date. Mail payments at least one week before the
 actual due date to avoid late fees. If your creditors offer on-line bill payment, save a stamp and pay on-line
2. Tracking Sheet: Use a tracking sheet to write where and for what money is spent. Write down all cash spent by the category in which it is spent. (When using a check, write in your checkbook or record in your banking software how money was spent). Keep your tracking sheet at home, in your car, or in your wallet - keep it where you will use it. It might be easier to use it daily than to try to remember what to write later.
3. Spending Plan (Budget): At the beginning of the month, use the first column to write planned spending. Once a week, list in a column what you really spent using the amounts on the tracking sheet and the checkbook. At the end of the month, subtract the amounts spent from the amount planned. A difference is normal - seeing it helps make planning decisions. Use a spending plan (budget), to decide and list where to spend money. Plan for expenses that do not occur each month by taking the yearly cost and dividing by twelve months, and then list it on your monthly spending plan.
4. Savings Account Ledger: Use a savings account for four key savings types and include amounts to save in your spending plan: A) Set aside money each month for planned expenses like car tags and clothes. For example, to plan $\$ 300.00$ per year for car maintenance, divide by twelve: plan to save $\$ 25.00$ per month. B) Save money for emergencies. Set an initial goal of one month's income and then build from that point (three to six months recommended). C) Save money for goals: a new car, a house, a vacation, or college. D) Save money to make long-term investments for the future. *Transfer the money from checking to savings every month.
5. Goals: Because you are controlling your money, decide what you want to accomplish. Write your goals so you can see them in print! This will help with your decision making and motivation.

Enjoy the freedom controlling your money will provide!

USE THIS FORM TO CONSTRUCT A CALENDAR FOR ANY MONTH by Writing in The dates. Write your paydays in the appropriate box in red ink. Then write your bills in the dates they are due in black ink. This will help you to know When you need to pay YOUR BILLS. CONTACT CREDITORS AND REQUEST DUE DATE ADJUSTMENTS IF TOO MANY BILLS ARE DUE AT THE SAME TIME OF THE MONTH.

|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |

Hang this list where you can see it. Re-visit and re-prioritize regularly!
According to a study of Harvard alumni, it is quite possible to write your way to success. The study found that 10 years after graduation ...

83\% of these graduates had no specific business or personal goals $14 \%$ had specific goals, but had not written them down 3\% had specific goals that were written down

Interestingly, the graduates with specific goals were earning about 3 times as much as those with no goals. And those with specific, written goals were earning 10 times as much as those with no goals.
